

STAFF/ADULTS

Staff/adults working in school with any of the following symptom (new/different/worse from baseline of any chronic illness) should be **excluded from work** and encouraged to follow up with their healthcare provider:

ONE of the following:

1. Feverish
2. Cough
3. Shortness of breath

OR TWO of the following:

1. Muscle aches without another explanation
2. Chills
3. Sore throat
4. Headache
5. Vomiting or Diarrhea
6. Loss of taste or smell

They should not return until it has been:

- At least 10 days since symptoms first appeared **AND**
- At least 24 hours with no fever without fever-reducing medication **AND**
- Symptoms have improved

(Employers **should not** require sick employees to provide a COVID-19 test result or healthcare provider's note to validate their illness, qualify for sick leave, or return to work.)

STUDENTS

Student has **ANY** of the following symptom (new/different/worse from baseline of any chronic illness):

- Temperature 100.4 or signs of fever (chills/sweating)
- Sore throat
- New uncontrolled cough that causes difficulty breathing
- Diarrhea, vomiting, or abdominal pain
- New onset of severe headache

EXCLUDE FROM SCHOOL

Student has **ANY** close contact or potential exposure risk in the past 14 days:

- Had close contact with a person with confirmed COVID-19
- Had close contact with person under quarantine for possible exposure to COVID-19
- Had travel history

NO

1. Refer to Healthcare Provider
2. Refer to COVID-19 testing location for possible testing
(Schools **should not** require testing results as a part of return to school policies.)

YES

Diagnosed with COVID-19 OR no other diagnosis available

HOME ISOLATION UNTIL:

- At least 10 days since symptoms first appeared **AND**
- At least 24 hours with no fever without fever-reducing medication **AND**
- Symptoms have improved

COVID-19 Test Results NEGATIVE

Had close contact with a person with confirmed COVID-19 within last 14 days?

NO

YES

Finish 14 Day Quarantine

Student may return based on the guidance for their symptoms (see "Managing Communicable Diseases in Schools"):

1. Fever: at least 24 hours have passed with no fever, without the use of fever-reducing medications
2. Sore throat: improvement (if strep throat: do not return until at least 2 doses of antibiotic have been taken);
3. Cough/Shortness of breath: improvement
4. Diarrhea, vomiting, abdominal pain: no diarrhea or vomiting for 24 hours
5. Severe headache: improvement

Student/Staff Person is Confirmed or Symptomatic^ Pending Results or a Close Contact.			
Scenario 1:	Scenario 2:	Scenario 3:	Scenario 4:
<p>A student/staff person within the school is confirmed to have COVID-19 (tests positive for COVID-19 with a nasal/throat swab).</p>	<p>A student/staff person within the school is symptomatic and lab result for COVID-19 are pending.</p>	<p>A student/staff person within the school is symptomatic and no testing for COVID-19 are done.</p>	<p>A student/staff person within the school is a close contact to a confirmed COVID-19 case.</p>
<p>The student/staff person AND all household members of the student/staff person are immediately excluded from school.</p> <p>The confirmed positive student/staff person must isolate at home. The student/staff person must be excluded from school until</p> <ul style="list-style-type: none"> • 24 hours with no fever (without the use of fever-reducing medication) and • Symptoms have improved and • 10 days since symptoms first appeared. <p>Household members and the quarantined student/staff person who are close contacts are excluded for 14 days after their last date of close contact.</p>	<p>FOR ALL STAFF and STUDENTS ONLY IF the test returns positive, see scenario 1.</p> <p>The student person is excluded from school until results of the test are available.</p> <p>If test results are negative and the ill student close contact to someone with COVID-19, they must still finish their quarantine.</p> <p>If test results are negative and the ill student had no known exposure to COVID-19, the student/staff person may return based on the guidance for their predominate symptoms (see "Managing Communicable Diseases in Schools").</p> <p>Household members and student/staff person who are close contacts of the <i>pending</i> case with no history of COVID-19 exposure (prior to lab results) should be monitored for symptoms while waiting for test results. They do not need to be excluded from school. If symptoms develop, they should</p>	<p>For ALL STAFF and for STUDENTS only IF They Answered YES to any Questions in Section 2# of Screener: The student/staff person is excluded from school until:</p> <ul style="list-style-type: none"> • 24 hours with no fever (without the use of fever-reducing medication) and • Symptoms have improved and • 10 days since symptoms first appeared. <p>For STUDENTS If They Answered NO to all of the Questions in Section 2 of the Screener: The student may return based on the guidance for their diagnosis/predominate symptoms (see "Managing Communicable Diseases in Schools").</p> <p>Household members and student/staff person who are close contacts: if the individual had close contact with a confirmed case of COVID-19 and suspicion for COVID-19 are high, they may need to be excluded from school. Consults with your health department.</p> <p>Otherwise, household members and student/staff person who are close contacts do not need to be excluded from school. They do not need to be excluded from school. If symptoms develop, they should call their medical provider to be tested for COVID-19.</p>

	call their medical provider to be tested for COVID-19.	medical provider to be tested for COVID-19.	
--	--	---	--

^Symptoms for students: fever, feeling feverish, cough, difficulty breathing, sore throat, diarrhea, vomiting, abdominal pain, severe headache

^Symptoms for staff: New or worsening: fever, feeling feverish, cough, difficulty breathing, sore throat, muscle aches, vomiting, diarrhea, new loss of taste or smell (Source: Should we be screening employees, Content of screening questions)

**Questions in Section 2: Had close contact (within 6 feet of an infected person for at least 15 minutes) with a person with confirmed COVID-19: OR Had close contact (within 6 feet of an infected person for at least 15 minutes) with person under quarantine for possible exposure to COVID-19; OR had recent travel history in last 14 days.*

**Close contact with a confirmed COVID-19 case is defined as being within 6 feet of a person who has tested positive for at least 15 minutes with or without a mask. Public health authorities may determine that distances beyond 6 feet can still result in high-risk exposures based on other considerations and circumstances in each particular case.*

Household Member of a Student within the School is Confirmed or Symptomatic Pending Results or a Close Contact.		
Scenario 1:	Scenario 2:	Scenario 3:
Household member of a student within the school has been confirmed to have COVID-19.	Household member of a student within the school is symptomatic, pending results, and has had close contact with a known case.	Household member of a student within the school has had close contact to a known case of COVID-19.
Students who live in the same house as the COVID-19 positive person are excluded from school while the household member is in isolation (10 days). The student must quarantine for 14 days after the last date of close contact while they are contagious.	Students who live in the same household of the family member are excluded from school until test results are in. If the household member is positive, see scenario 1. If the household member is negative, student may be able to return to school unless household member is determined to be a probable case of COVID-19.	Student can remain in school but should be monitored. They do not need to be excluded from school. If COVID -19 symptoms develop in the household member, students should be excluded from school, and should be treated as in Scenario 1 pending results.

**Close contact with a confirmed COVID-19 case is defined as being within 6 feet of a person who has tested positive for at least 15 minutes with or without a mask. Public health authorities may determine that distances beyond 6 feet can still result in high-risk exposures based on other considerations and circumstances in each particular case.*
